Clarendon Sixth Form Futures Programme: Upcoming Events

Clarendon Sixth Form prides itself on being an educational institution that achieves the best for all our learners. We are committed to ensuring our most able learners are challenged beyond their potential to ensure the time they spend with us gives them the best head start for their future.

Our Clarendon Futures Programme places our exceptional learners onto a bespoke tutorial programme that encourages and motivates success in A Level subjects and with higher education applications.

You can gain early access to the Clarendon Futures Programme (in year 10 and year 11) by attending a variety of events we are offering between September and December 2017:

18th October 2017- Futures Event:

Pre-Medicine and Dentistry (5 – 7.00pm)

This event will allow you access to professionals in the field of medicine and dentistry. You will be given insider access to these two sectors by industry professionals. They will inform you of what is required to enter into these professions, what subject choices are required to access higher education and information on what it is like to work in these professions.

15th November 2017- Futures Event:

Pre Law (5 - 7.00pm)

This event will be led by professionals who practice law on a daily basis. You will have access to the professional life of a solicitor and a barrister, and gain information on what it has taken them to achieve their current position, what requirements are needed in terms of A Level grades and HE courses and how to get started from an early age.

13th December 2017- Futures Event:

Pre-Teaching (5 - 7.00pm)

Many young people aspire to become teachers and do not realise that they can start working towards this career path from an early age. This workshop will allow you to access a newly qualified teacher and experienced teaching professionals. The event covers both primary and secondary teaching careers. You will gain information and advice on the teaching profession and what you can start doing now to help you develop your skills to ensure you are starting your teaching journey. You will also find out about career progression opportunities for teachers.

What you can expect from the Clarendon Futures Programme:

10 things which make Futures learners stand out from the rest!

1. Specialist guidance and support with applications to prestigious universities and for competitive courses including Oxbridge, Russell Group, Medicine, Dentistry and Veterinary Medicine.
2. The opportunity to undertake an Extended Project Qualification
3. The opportunity for the most able, to take 4 or 5 A level subjects.
4. Futures support- you will be timetabled alongside other high achieving learners who have similar aspirations to you and want to 'be the best' - this will be supported by specialist teachers who will challenge you to achieve top marks.
5. Oxbridge visits and seminars- this will allow you to experience life as an Oxbridge student.
6. Mock interview preparation: interviews will be conducted by visiting lecturers from the most prestigious universities in the North-West from subject areas that include; medicine, engineering, ophthalmology, pharmacy, dentistry, law, teaching and veterinary medicine.
7. A variety of guest lectures and workshops with industry professionals where you will get 1:1 advice and support to undertake work experience in your field of choice.
8. Access to HE and careers events across the academic year that will support your university applications.
9. Attendance at a gifted and talented conference during the academic year.
10. An academic mentor to support your HEI application through UCAS
